

SUSTAINABILITY POLICY

We, at Adam Fabriwerk Pvt. Ltd. are committed to integrate environmental, social and ethical principles into our business and innovate sustainable mobility solutions with passion to enhance quality of life of communities.

To improve our performance, we shall:

- Integrate sustainability considerations into all business decisions, functions and work processes, with the aim of creating value and contributing to sustainable development.
- Follow the highest standard of governance and transparency.
- Embody principles of product stewardship by enhancing environmental, health and safety impacts of our product across their life cycles.
- Work with suppliers who have positive environmental credentials, or working with them to raise their awareness of sustainability.

Adam Fabriwerk Pvt. Ltd is committed not only to comply with applicable law in all of its operations but to minimize risks and impacts through the development of robust and documented systems to implement, measure, monitor, and disseminate excellent performance within its operations and to the broader community.
